

CMP3753M Project – Assessment 1

Learning Outcome	Criterion	Pass	2:2	2:1	1st
LO1 – Devise aims and objectives of a feasible project, identifying appropriate methods, tools, techniques, timescales and deliverables	C1: Produce a Project Proposal which includes all sections as set out in the assessment brief.	The background and rationale for the project has been outlined and the aim and objectives stated in the Project Proposal document. Literature sources have been identified, but they may not be directly relevant. An outline project plan, with risks, has been provided.	The background and rationale for the project has been explained and the aim and objectives clearly stated in the Project Proposal document. Literature sources have been identified. A project plan, with risk considerations, has been provided.	The background and rationale for the project has been explained well and a logical aim and relevant set of SMART objectives are clearly stated. Relevant literature sources have been identified. A comprehensive project plan, with in-depth risk analysis, has been provided.	A critically considered, and academically justified, project proposal. The relevance of the project aim and SMART objectives and the way in which they are articulated is clear and concise. Relevant literature sources have been identified. The project plan is logical and fully documented. Project specific risks have been identified, along with a realistic and achievable plan for their mitigation.
	Receive ethical approval for the project. (100%)	References are in accordance with Harvard and the correct EA forms have been completed. Ethical approval is granted.	References are in accordance with Harvard and the correct EA forms have been completed. Ethical approval is granted.	References are in accordance with Harvard and the correct EA forms have been completed. Ethical approval is granted.	References are in accordance with Harvard and the correct EA forms have been completed. Ethical approval is granted.
	C2: Ensure your Project proposal is appropriate for your named programme of study (0%)	This criterion is marked on a pass/fail basis and not graded. Your Project Supervisor will be required to confirm the applicability of your project by applying a pass grade to this criterion. If you receive a fail grade for this criterion your overall mark for Assessment Item 1 will not be impacted but you will be required to revise your project proposal to ensure that it does meet the requirements of a Project in your name programme of study.			
Weighting	Weightings of criteria for this assessment are as identified above.
